OBJECTIVE

Seeking an internship for summer 2025 involving embedded systems, ASIC Chip design, or programming. I am passionate about both hardware and software engineering.

EDUCATION

North Carolina State University | Raleigh, NC

May 2026

- ▷ B.S. in Computer Engineering
- ▷ G.P.A: 2.8

Tri-County Community College | Murphy, NC

Fall 2024

- ▷ Associate's Degree in Arts
- ▷ G.P.A: 4.0

WORK EXPERIENCE

Aegis Power Systems | Computer Science Intern

May 2024 - August 2024

- ▷ Designed and constructed a custom command line interface for an embedded power supply that could be controlled remotely using Secure Shell Protocol
- ▷ Communicated with and controlled devices using RS232 communication protocol
- ▷ Gained experience in Linux, Bash, and Python

TEAM Industries | Engineering Intern

June 2022 - August 2022

- ▷ Programmed a Visual Basic script within Excel to identify out-of-spec parts
- ▷ Created and maintained spreadsheets by designing custom formulas
- ▷ Developed technical reports clarifying project revisions

Tri-County Community College | Math Tutor

January 2022 – May 2022

- ▷ Taught pre-calculus, statistics, and quantitative literacy to students in high school and community college
- ▷ Cultivated tutoring methods to benefit a student's academic needs
- ▷ Dedicated 2-3 hours a day explaining concepts to remote and in-person students

PROJECTS

NCSU Logic Circuit: Vending Machine

Spring 2024

- ▷ Designed and built a sequential logic circuit on a breadboard
- ▷ Tested hardware accuracy on WaveForms test-bench using an Analog Discovery 2
- ▷ Optimized circuit design for efficiency by minimizing gate usage.

NCSU C++ Search Algorithms: Maze Solver

Spring 2024

- ▷ Implemented 3 different search algorithms: BFS, DFS, and GBFS
- ▷ Analyzed the time efficiency of each algorithm across various maze configurations.
- ▷ Evaluated the memory consumption of each algorithm to assess its resource efficiency.

SKILLS

Programming Languages: C, C++, Python, Verilog, BASH, VBA, MATLAB, and Assembly (LC3).

Technical: Soldering, Logic Circuit Design, Micro-controller Programming, Circuit Analysis, Linux CLI Usage
